Cloze Passage:
Information and Communication Technology (ICT) has **1** the landscape of education, providing new opportunities for learning and teaching. The integration of ICT has **2** traditional teaching methods, making education more accessible and interactive. Through ICT, students can benefit from **3** learning experiences, with adaptive platforms catering to their individual needs. The internet has facilitated **4** connectivity, enabling global collaboration among students and educators. Despite the numerous benefits, challenges such as the digital divide and concerns about **5** and data privacy need to be addressed for a more inclusive and secure educational
