

## The second serie (N°02)

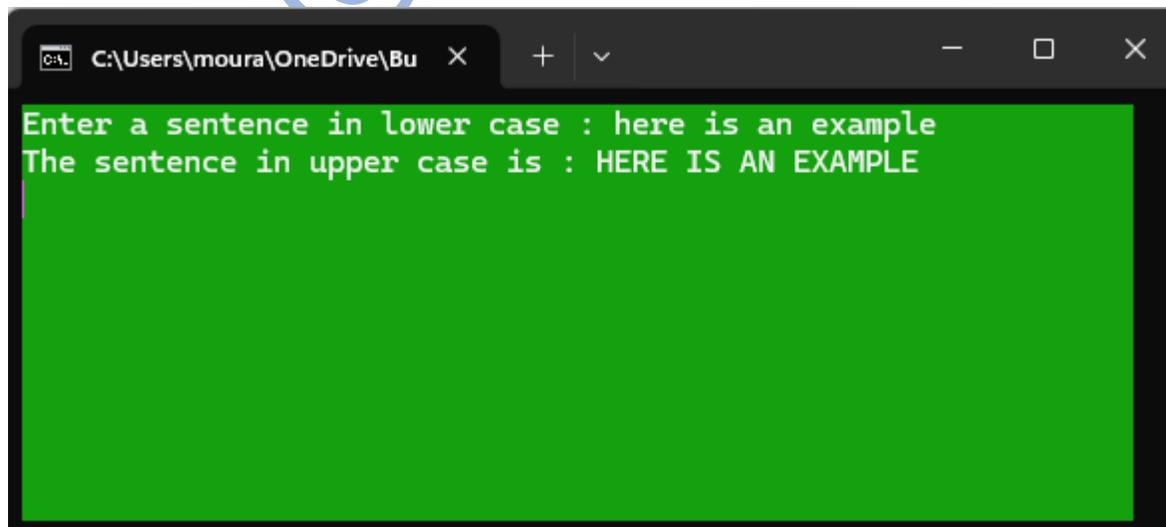

### Solution

#### Exercice 09 :

- 1) Here is a pascal program that converts a sentence written in lower case to the same sentence in upper case

```
Program lower_upper;  
var s:string;  
i:integer;  
begin  
write('Enter a sentence in lower case : ');  
readln(s);  
For i:=1 to Length(s) Do  
s[i]:=Uppcase(s[i]);  
write('The sentence in upper case is : ');  
writeln(s);  
readln;  
end.
```

After program running, here's the display:

```
C:\Users\moura\OneDrive\Bu x + v - □ ×  
Enter a sentence in lower case : here is an example  
The sentence in upper case is : HERE IS AN EXAMPLE
```
