Dear Mr. Einstein,

Your application for the Doctorate has not been successful at this time and as such you are not eligible for the position of Associate Professor.

While you posed an interesting theory in your article published in "Annalen der Physik", we feel that your conclusions about the nature of light and the fundamental connection between space and time are somewhat radical. Overall, we find your assumptions to be more artistic than actual Physics.

Sincerely yours,

Professor Wilhelm Heinrich, Ph.D.
Dean of Sciences
