Table of Contents

1. OVERVIEW 1

MATLAB's Power of Computational Mathematics **1**

Features of MATLAB **1**

Uses of MATLAB **2**

2. ENVIRONMENT 3

Local Environment Setup **3**

Understanding the MATLAB Environment **4**

3. BASIC SYNTAX 7

Hands on Practice **7**

Use of Semicolon (;) in MATLAB **8**

Adding Comments **8**

Commonly used Operators and Special Characters **9**

Special Variables and Constants **10**

Naming Variables **11**

Saving Your Work **11**

4. VARIABLES 12

Multiple Assignments **13**

I have forgotten the Variables! **13**

Long Assignments **14**

The format Command **15**

Creating Vectors **17**

Creating Matrices **18**

5. COMMANDS 20

Commands for Managing a Session **20**

Commands for Working with the System **20**

Input and Output Commands **22**

Vector, Matrix, and Array Commands **23**

Plotting Commands **25**

6. M-FILES 27

The M Files **27**

Creating and Running Script File **27**

7. DATA TYPES 30

Data Types Available in MATLAB **30**

Data Type Conversion **32**

Determination of Data Types **34**

8. OPERATORS 39

Arithmetic Operators **39**

Functions for Arithmetic Operations **42**

Relational Operators **46**

Logical Operators **49**

Functions for Logical Operations **50**

Bitwise Operations **55**

Set Operations **57**

9. DECISION MAKING 60

if... end Statement ····· 61

if...else...end Statement ····· 63

if...elseif...elseif...else...end Statements ····· 64

The Nested if Statements ····· 66

The switch Statement ····· 67

The Nested Switch Statements ····· 69

10. LOOP TYPES ····· 71

The while Loop ····· 72

The for Loop ····· 73

The Nested Loops ····· 76

Loop Control Statements ····· 78

The break Statement ····· 79

The continue Statement ····· 80

11. VECTORS ····· 83

Row Vectors ····· 83

Column Vectors ····· 83

Referencing the Elements of a Vector ····· 84

Vector Operations ····· 85

Addition and Subtraction of Vectors ····· 85

Scalar Multiplication of Vectors ····· 86

Transpose of a Vector ····· 86

Appending Vectors ····· 87

Magnitude of a Vector ····· 89

Vector Dot Product ····· 90

Vectors with Uniformly Spaced Elements ····· 90

12. MATRIX 92

Referencing the Elements of a Matrix 92

Deleting a Row or a Column in a Matrix 94

Matrix Operations 96

Addition and Subtraction of Matrices 96

Division (Left, Right) of Matrix 97

Scalar Operations of Matrices 98

Transpose of a Matrix 99

Concatenating Matrices 99

Matrix Multiplication 101

Determinant of a Matrix 102

Inverse of a Matrix 102

13. ARRAYS 104

Special Arrays in MATLAB 104

A Magic Square 106

Multidimensional Arrays 106

Array Functions 109

Sorting Arrays 112

Cell Array 113

Accessing Data in Cell Arrays 114

14. COLON NOTATION 116

15. NUMBERS 119

Conversion to Various Numeric Data Types 119

Smallest and Largest Integers 121

Smallest and Largest Floating Point Numbers 123

16. STRINGS 125

Rectangular Character Array 126

Combining Strings into a Cell Array 128

String Functions in MATLAB 129

17. FUNCTIONS 134

Anonymous Functions 135

Nested Functions 138

Private Functions 139

Global Variables 140

18. DATA IMPORT 142

Low-Level File I/O 146

Import Text Data Files with Low-Level I/O 147

19. DATA OUTPUT 152

Writing to Diary Files 154

Exporting Data to Text Data Files with Low-Level I/O 154

20. PLOTTING 156

Adding Title, Labels, Grid Lines, and Scaling on the Graph 158

Drawing Multiple Functions on the Same Graph 159

Setting Colors on Graph 160

Setting Axis Scales 161

Generating Sub-Plots 162

21. GRAPHICS 164

Drawing Bar Charts 164

Drawing Contours 165

Three-Dimensional Plots 167

22. ALGEBRA 169

Solving Basic Algebraic Equations in MATLAB 169

Solving Quadratic Equations in MATLAB 171

Expanding and Collecting Equations in MATLAB 176

Expanding and Collecting Equations in Octave 177

Factorization and Simplification of Algebraic Expressions 179

23. CALCULUS 181

Calculating Limits 181

Verification of Basic Properties of Limits using Octave 184

Left and Right Sided Limits 185

24. DIFFERENTIAL 188

Verification of Elementary Rules of Differentiation 189

Derivatives of Exponential, Logarithmic, and Trigonometric Functions 193

Computing Higher Order Derivatives 198

Finding the Maxima and Minima of a Curve 200

Solving Differential Equations 204

25. INTEGRATION 206

Finding Indefinite Integral Using MATLAB 206

Finding Definite Integral Using MATLAB 210

26. POLYNOMIALS 216

Evaluating Polynomials 216

Polynomial Curve Fitting 217
