

INSTRUCTIONS FOR THE ENGLISH FOR COMPUTING EXAM

The English for Computing exam, as mentioned during the course is composed of four parts.

Part one is comprehension (6 points). It includes two parts. *The first part* comprises three words to paraphrase from the text. You have to guess their meaning according to the context. *The second part* includes two comprehension questions to be answered from the text.

Part Two is computer terminology (4 points). This exercise includes four acronyms studied in class to define.

Part Three is a computer Quiz (4 points). You have four computer words studied in class to explain in your own words.

Part Four is about writing a paragraph (6 points). You have to remember the following points :

- *A paragraph should be indented
- * The question has to be answered fully
- *Punctuation has to be respected
- *Use short sentences and linking words.

PS/ All cell phones should be turned off during the exam. Any telephone on will be confiscated.
